SUMMARY

Full Stack Developer with 3+ years of experience in designing, developing, and deploying scalable web applications using **React.js, Next.js, Node.js, TypeScript, Express.js, MongoDB, MySQL, PostgreSQL, and AWS Lambda**. Experienced in building enterprise-grade applications, RESTful APIs, responsive user interfaces, authentication systems, and cloud-based backend services. Proficient in Agile development, performance optimization, API integration, state management with Redux Toolkit, and database design. Passionate about writing clean, maintainable code and delivering high-quality software solutions.

EXPERIENCE

Software Engineer

iProgrammer Solutions Pvt. Ltd.

08/2023 - Present Pune

Worked with an international team to design, develop, and deploy scalable web applications.

- Developed **full-stack applications** using the **MERN stack**, with a focus on **React.js** and **Next.js** for the frontend, and **Node.js** for backend services.
- Built and deployed **AWS Lambda functions** to handle backend business logic, integrating with **MySQL** and **MongoDB** using **Sequelize ORM** and optimized raw SQL queries.
- Collaborated in an **agile environment**, participating in sprint planning, daily standups, and retrospectives to ensure timely and high-quality software delivery.
- Worked closely with cross-functional teams across different time zones, contributing to the development of new features and performance optimizations.

Teaching Assistant

Coding Ninjas

07/2023 - 02/2024 Gurugram

Supported students and contributed to the enhancement of the company's educational software products.

- Contributed to the **development and improvement** of the company's software tools and learning platforms.
- Conducted **interactive online sessions**, teaching **programming concepts** and **problem-solving techniques** to students in an engaging and easy-to-understand manner.
- **Identified and resolved coding errors** during sessions, ensuring smooth execution of programs and promoting a positive, hands-on learning environment.
- Assisted in **curriculum development** and provided **personalized support** to help students strengthen their coding fundamentals.

SKILLS

JavaScript | TypeScript | React.js | Next.js | Redux Toolkit | React Redux | HTML | CSS | Node.js | Express.js | MySQL | PostgreSQL | MongoDB | Sequelize | Mongoose | Firebase | Rest APIs | PostgreSQL | AWS | Agile Development | DSA | MS Office | Git | Bitbucket | JIRA | Postman | VS Code

PROJECTS

UTEC by UltraTech

12/2024 - Present iProgrammer Solutions

Worked as a Frontend Developer on multiple enterprise-grade web applications within the UltraTech UTEC ecosystem, delivering responsive, high-performance user interfaces in an agile environment.

- Delivered sprint-wise tasks efficiently, collaborating with cross-functional teams to ensure timely feature releases and high-quality deliverables.
- Built and maintained multiple applications including the **Admin Panel**, **PSSP Portal**, **CCP Platform**, and **OneTech/Akutec systems**, supporting diverse business operations such as analytics, partner onboarding, and workflow management.
- Developed **responsive, component-driven UIs** using **React.js**, **Next.js**, **Redux Toolkit**, and **React Redux**, ensuring seamless user experiences.
- Integrated **RESTful APIs** for dynamic data handling and optimized app performance.
- Utilized **Bootstrap** and **Reactstrap** for consistent, scalable, and visually appealing layouts aligned with design guidelines.

Oku Mobile App

09/2024 - 11/2024 iProgrammer Solutions

Personalized healthcare mobile application designed to connect users with healthcare services and track wellness data securely and efficiently.

- Developed and optimized **backend services** using **Node.js** and **Sequelize ORM** with **MySQL**, including complex raw queries for performance-critical operations.
- Built **AWS Lambda functions** to handle core business logic and background tasks, ensuring scalability and cost efficiency.
- Integrated **Amazon Cognito** for secure user authentication and authorization across the mobile application.
- Collaborated with frontend and mobile teams to design robust APIs supporting real-time data synchronization and smooth app functionality.
- Implemented proper **error handling**, **logging**, and **data validation** to enhance system reliability and maintainability.

askUtec by UltraTech

10/2024 - 04/2025 iProgrammer Solutions

Developed a socail media-like platform using Next.js where users can interact with posts by liking, commenting, sharing and booking consulations and admin can manage all the post , users & consulations.

- Implemented role-base features for different user types, enabling tailored functionality across three distinct roles, including admin, user & moderator.
- Contributed to the development of an admin panel to manage users, posts, consulations and overall platform content, ensuring a smooth and scalable management system.

EDUCATION

Bachelor's in Computer Sceince

Deenbandhu Chhotu Ram University of Science and Technology (DCRUST), Murthal

2018 - 2022 Sonipat, Haryana

KEY ACHIEVEMENTS

Employee of the Month (July 2025)

Recognized for outstanding performance, teamwork and consistent delivery of high-quality code and features under tight deadlines.

Enhanced Software Efficiency

Increased code efficiency by 30% enhancing software performance and reducing server costs.

Effective Student Mentorship

Mentored 50 students, improving their coding skills and project success rates by 25%.

PROJECTS

Coolant Management System

10/2023 - 11/2024 iProgrammer Solutions

Designed and developed the entire front-end using React.js for a CMS where admins can create and manage compaines

- Implemented all functional aspects, including user management, data handling, and report generation, with capabilities for exporting reports to Excel and visualizing data through graphs.
- Delivered a fully functional, user-friendly system independently, handling both frontend development and business logic to ensure smooth operation and management of coolant-related processes.
- Played a crucial role in optimizing the overall user experience and functionality, ensuring the app was robust and efficient.
